How Best Can I Serve?

Wide publicity is being given to the opinion expressed by Gordon Conant, brilliant attorney general of Ontario, who in the heat of his enthusiasm stated that Canada's duty was to bring the United States into the war. Statements are being made by others which are equally harmful to our cause and to the unity of Canada.

Canada's job, and that of every citizen, is to attend to our own personal business and throwing all our organizing ability and resources into winning the war and more especially to win peace which will be for a period greater than 20 years.

Instead of dwelling upon the mistakes of the past, placing blame on our leaders for ineffective action and we should all forget personal differences and pull our full weight in the building up of strong communities without which the nation itself cannot prosper.

So we suggest that a true community spirit be shown by support of local merchants, your home paper, the boys with the bat and ball, the girls basketball team and last but not least your respective churches and lodges. By maintaining a high standard of community spirit in the above phases of activity you will be doing something concrete for winning the war.

German Contraband

Every case of German goods entering Canada during the last few years before the war contained Nazi propaganda of some description or other, according to J. S. Roe, Wartime Examiner of Publications and Director of Publicity, Customs Division, Department of National Revenue. Cases of German Novelty, for instance, revealed, upon inspection, camouflaged layers of leaflets extolling the Nazi creed and the Hitler Credo. Phonographic records of the Fuehrer's vitriolic speeches were often found among shipment. A virtual flood of propaganda was stemmed at Canada's frontiers by Customs Inspectors.

NEW SEED IS THE BEST!

An ancient agriculturist, Theophrastus, in 300 B.C., told us "New seed is the best," and then Aristotle, in 350 B.C., wrote "A good plant is not likely to grow from a bad seed."

This golden advice is as true today as it was then.

Wheat Pool Pays Fourteen cents to Alberta Farmers

It was announced last week that a payment of 14c a bushel has been sent out by the Saskatchewan Wheat Pool to growers who had pooled their grain. A similar payment was made by Alberta Wheat Pool on April 4th.

There seems to be a misunderstanding regarding this payment, and some farmer who have delivered to the Wheat Board have gained the impression that the payment has something to do with the Board. Such is not the case. There were a limited number of farmers, who had delivered in excess of the 5,000 bushels which could be delivered to the Wheat Board, who pooled the excess bushelage. There were others who were not in a position to deliver any wheat to the Wheat Board and some of these pooled their grain. The initial payment to these growers was 56c a bushel, basis One Northern at Ft. William. The interim payment of 14c brings the total payment up to 70c, the same as the Wheat Board minimum price.

Welfare Work in War Effort

Welfare organizations are playing a big part in Canada's war effort. They have relieved the Government of a costly and complicated duty. They own and maintain buildings and equipment valued in the hundreds of thousands dollars. These are at the disposal of the troops at no cost to the Government. Through these organizations, Canadian patriotism and the will to serve, evinced throughout the Dominion, have been mobilized and diverted into practical channels of service. The whole welfare structure in Canada is based on voluntary service.
